Who am I

- Got PhD degree in 2008 at the University of L'Aquila (Italy) with the thesis “Difference Representation and Conflict Management in Model-Driven Engineering”
- I am a postdoc researcher (hopefully future Senior Lecturer) at Mälardalen University in Sweden since November 2008

What I am working on

- Model-Driven Engineering in industrial software engineering problems (transformation testing and certification)
- Model (co-)evolution
- Multi-view and separation of concerns based modeling
- Deployment space exploration (including software/hardware partitioning)
- Code generation for heterogeneous platforms

Criteria for success

- Joint paper(s)
- Project proposal(s)
